

DATA SHEET

8417 Black Back Mesh without Liner 270-37

Black Back Mesh 270 is a new plus premium PVC coated mesh. Flat yarn with 12 x 12 structure is with more printing area and exquisite printing results. The back black color makes one way vision property. Available with a 3 mil PVC removable liner in widths up to 98" (8416), the liner catches the ink blow-through on digital printing machines that are not equipped with a mesh-blotting adapter. 8417 is without liner in widths 98" and 126". Compatible with solvent, eco-sol, UV, Latex and screen printing.

USEFUL INFORMATION

Parameter	Test Method	Value
Support Material	DIN 60001	100% polyester yarn
Thread Count		12 x 12
Denier	DIN EN ISO 2060	1000 x 1000
Surface Material		PVC
Weight	DIN 53352	270 gsm / 8 oz per yd ² with liner
Caliper	DIN 53370	300 μ / 12 mil with liner
Open Rate		37%
Tensile (warp / weft)	DIN 53354	1700 x 1500 N/5cm
Tear	DIN 53363	280 x 320 N
Adhesion Strength (Peel)	DIN 53357	N/A
Flame Resistance	NFPA 701	customized for NFPA701, B2 on request
Lo Temp (No Crack at ...)	ISO 13934-1:1999	-30 C
RF Weldable		Yes

APPLICATION COMPATIBILITY

Parameter	Range	Other Factors
Typical Applications	Fence mesh, graphics requiring air circulation or view thru from backside.	
Outdoor Durability	12 months or more, but largely dependent on environmental conditions, methods of installation, printing, and post-print finishing.	
Print Technology	Sol, Eco, UV, Latex, Screen	
Standard Widths	98", 126"
